The Spanish railway sector loaded with technological advances in InnoTrans

- **Mafex has organized, with the support of ICEX Spain Trade and Investment, the joint participation of 53 companies in the tenth edition of InnoTrans.**

Berlin, September 2014.- The Spanish Railway Association (Mafex), has organized with the support of ICEX Spain Trade and Investment, the group participation of the industry in the tenth edition of InnoTrans. During the fair, technological innovations and very specialized services developed by the attendant companies will be exposed. All of them have led the Spanish industry to be in a good position in the world ranking.

MAFEX: boosting trade relations with the Spanish industry

The wide diversity of Spanish companies in each of the subsectors of the value chain (infrastructure, electrification, rolling stock, interior, equipment and components, maintenance, etc.) allow using synergies and adapting services to the needs of each client.

In order to publicize in detail the solutions provided by the Spanish industry to the world market, and promote new business opportunities and collaborations with railway administrations and industry companies and professionals, MAFEX, in collaboration with ICEX Spain Export and Investment, has coordinated the participation of a Spanish nourished representation at InnoTrans 2014, consisting of 53 companies occupying a total space of 2,730 m².

First order innovations in all rail segments

On the outside are particularly noticeable the technological capabilities acquired in all fields of activity. The common denominator that characterizes the Spanish rail industry is its commitment to R&D and the variety and breadth of its services in the areas of management and execution of major works and the construction of trains. All of these innovations will be present this year in InnoTrans.

**About MAFEX*

The objective of the Spanish Railway Association (MAFEX) is to carry out promotional activities in other countries, as well as to defend their general interests.

Created in 2004, it currently has 71 members representing more than 85% of Spanish rail industry's exports, according to official figures in 2012. Known as the official collaborating organization of the Spanish Ministry of Economy and Competitiveness through its Subsecretariat of Trade, the Association is supported by GRUPO AGEX, to which it belongs, and by different national and international organizations and institutions.
